Patient Financial Policy

Your understanding of our financial policies is an essential element of your care and treatment. If you have any questions, please discuss them with our front office staff or supervisor.

•	
	As our patient, you are responsible for all authorizations/referrals needed to seek treatment in this office
•	It is the patient's responsibility to know whether our office is participating or non-participating with their insurance plan. Failure to provide all required information may necessitate patient payment for all charges
	Your insurance policy is a contract between you and your insurance company. As a courtesy, we will file your insurance claim for you if you assign the benefits to the doctor. In other words, you agree to have your insurance company pay the doctor directly. If your insurance company does not pay the claim within a reasonable period, we will have to look to you for payment
41	We have made prior arrangements with certain insurers and other health plans to accept an assignment of benefits. We will bill those plans with which we have an agreement and will only require you to pay the co-pay/co-insurance/deductible as outlined by your insurance carrier.
•	If you have insurance coverage with a plan with which we do not have a prior agreement, we will prepare and send the claim for you on an unassigned basis. This means your insurer will send the payment directly to you. Therefore, all charges for your care and treatment are due at the time of service
• (All health plans are not the same and do not cover the same services. In the event your health plan determines a service to be "not covered," or you do not have an authorization, you will be responsible for the complete charge. We will attempt to verify benefits for some specialized services or referrals; however, you remain responsible for charges to any service rendered. Patients are encouraged to contact their plans for clarification of benefits prior to services rendered
	You must inform our office of all-insurance changes and authorization/referral requirements. In the event the office is not informed, you will be responsible for any charges denied
	For most services provided in the hospital, we will bill your health plan. Any balance due is your responsibility
	Co-payments: It is a requirement of your insurance company that we collect your co-pay. Payment is required at the time of service
	Deductibles & Co-insurance: If you have a high deductible plan, we collect a \$125 deposit to

insurance company is your responsibility.
